

Printing Directions for Multiplication Facts Flash Cards in Windows

1. With this file open, click “File” on the menu bar.
2. Click “Print” in the “File” menu.
3. Enter “2” in BOTH the “Pages from:” and in the “Pages to:” boxes under “Print Range”.
4. Uncheck everything in the “Copies and Adjustments” area.
5. Click “Print”.
6. The following warning might appear. “The margins of section 2 are set outside the printable area of the page. Do you want to continue?” If this occurs, click “Yes”
7. If resulting page is satisfactory follow the same procedure, entering “3” in “Pages from:” and “21” in “Pages to:” to print the remaining division problem pages.
8. Put the first page you printed as the first page of the 9 printed pages.
9. You should have one set of all division basic facts cards and answers. These can be used as a master to run off multiple sets with a mimeo type machine **CENTERED** on 9 X 12 construction paper. (Make sure it is acceptable to run construction paper through your machine.
